

Examination Checklist

Questions to ask when examining application:

1. What's the "effective" filing date of the application? Is there also foreign priority date?

Oct. 28, 2003

2. What's the problem with prior art? (See "Background of the Invention")

no method or apparatus that enables pixel density conversion in the longitudinal direction of the stripe electrodes (sub-scanning direction) has been disclosed to date.

no method or apparatus that enabled selection between the high speed readout mode and the high image quality mode has been disclosed to date.

3. What's applicant's proposed solution and/or improvement? (See "Summary" and "Detailed" Spec)

It is the first object of the present invention to provide a method and apparatus for reading out an image from an optical readout type solid state detector equipped with stripe electrodes that enable pixel density conversion in the longitudinal direction of the stripe electrodes (sub-scanning direction).

The second object of the present invention is to provide a method and apparatus for reading out an image from a solid state detector equipped with a readout light photoconductive layer formed from an amorphous substance that enables selective utilization of a high speed readout mode and a high image quality mode.

4. Are claims reflect the proposed solution and/or improvement as disclosed?

Yes

Check Below:

___ CONTINUATION case? Check "Continuity/Foreign Data" in eDAN or PALM, if yes

See me. We need to check if original Examiner wants to work on it first.

___ Primary assigned CLASSIFICATION correct? If not, we may have to transfer. See your SPE/primary.

___ RESTRICTION? (i.e., multiple inventions?) If yes, see your SPE/Primary.

X__ Draw claim tree and group claims (use this link: www.pattools.com/claim_tree.html)

__ DOUBLE PATENTING? Do inventor search using PALM or eDAN, see [flowchart in ch. 800 of MPEP](#)

__ Preliminary Amendment? If yes, it supersedes original disclosure. NEW MATTER? See SPE/primary.

X IDS (information disclosure statement) filed? If yes, review, annotate & remove IDS flag.

X Document all search activities, including whom consulted.

X Prior Art found? Not sure about date? See SPE/Primary.
